

Horseback @ Wolwedans

in association with Namibia Horse Safari Company

Please note: horse riding can also be done by guests who have never sat in a saddle before.

Dear guest

Wolwedans invites you to revel in the wide open spaces of the NamibRand Nature Reserve on horseback. Experience an unparalleled sensation of freedom while exploring the vast landscape from atop another living creature. Other than taking a walk through the terrain, no other activity can offer the same level of direct proximity to nature.

The horse-back riding offered at Wolwedans can be tailored to suit each guest's riding ability. Different options (always on a first come first serve basis) include a two hour mid-morning ride around the village, two to three hour morning rides with breakfast, or two to three hour sundowner ride in the dunes, as well as day-rides (5-6 hours on horse back) with a picnic lunch served in the field (normally at Jagkop mountain).

The horses range from gentle souls to more lively rides, once again dependant on each guest's level of experience. For more information, please have a look at the details overleaf and feel free to enquire with your guide or our camp management.
