

Join the Club

Club Chateau offers regular visitors and friends of Wolwedans the opportunity to stay at half price at any time of the year.

Apart from this benefit, Club members make a positive contribution towards ensuring that Wolwedans and the NamibRand Nature Reserve achieve their conservation goals. As membership benefits are transferable, the Club lends itself to being used by both individuals and companies. The reason for entertaining the Club is threefold:

- Make Wolwedans more accessible to a broader circle of nature lovers
- Offer regular visitors, who tend to stay for longer periods of time, a more accommodating rate
- Create a stronger bond between Wolwedans and a growing circle of valued clients, thus increasing the number of 'Ambassadors' for the cause (sustainable eco-tourism)

On behalf of the Wolwedans 'family' you are invited to consider this proposition. We trust that you will see the merit in joining a circle of people who seek out exquisite tourist destinations, all the while being conscience of the impact that their travels have on the environment.

Club Chateau benefits all involved. It guarantees a win-win situation for both the Club member as well as for Wolwedans.

How it works

You can acquire a Club Chateau membership by making a once-off payment, of NAD 100.000 (or more). This NAD 100.000 will then buy you bed-nights at any of the Wolwedans Collection camps to the value of NAD 200.000 (or more pending input). Hence, you save 50% on published rates. It is important to understand that the membership fee resembles a payment up-front, and no further charges will be levied in the future, except for the NamibRand Nature Reserve park fee (which may fluctuate) as well as drinks and extra services.

Your input represents credit with Wolwedans, which can be utilized as and when you wish over a five-year period. Your account will be debited with every stay until you have exhausted your credit, upon which time you are welcome to renew.

Membership

Members can be private individuals who visit Wolwedans on a regular basis and can see themselves or members of their family and friends, spending a number of days every year at this location for years to come.

Club Chateau also welcomes corporate members from anywhere in the world, who can use their membership to entertain visiting guests, good clients, management, and high-performing employees, with a stay at Wolwedans (incentive travel).

Benefits

- You save 50% on published rates.
- Benefits are transferable (not membership though). This means that family members, friends and colleagues will also be able to benefit from your membership. You just have to place the booking and provide the visitors names.
- Existing members have the option to renew their membership.
- Members seeking the ultimate in seclusion and tranquility will have exclusive use of 'Chateau Namib', a quaint cottage perched

atop an 'inselberg', in the northern part of the Chateau plains.

- Priority wait-listing when Wolwedans is fully booked.
- Wolwedans channels a certain percentage of its total turnover into the Wolwedans Foundation. Hence, a portion of your Club payment is channeled into the Foundation too. The Wolwedans Foundation is the social responsibility vehicle of the Wolwedans Collection and focuses on conservation, culture and community (mainly vocational training). Apart from conservation support, your contribution will go a long way in contributing towards a worthy cause.
- Last but not least, members who become part of the Wolwedans family experience the Wolwedans way of life and share in the dream of conserving the NamibRand Nature Reserve.

Join the Club

1. Please read, understand and sign the Benefits & limitations" form (see separate pdf document) and kindly submit together with the completed Club Application (see separate pdf document). Alternatively print out the Application Form from the web and mail/fax it to our office. This will serve as your commitment to join the Club.
2. NamibRand Safaris will then acknowledge receipt and in all likelihood accept the application (we also reserve the right to decline memberships).
3. Upon confirmation, the member makes a payment into the Club account, so as to formalize membership. Such payment may take the form of a cheque, direct bank deposit, or electronic funds transfer. Note that credit card payments are only accepted for ad-hoc payments on site at Wolwedans.
4. Upon receiving payment, Wolwedans opens an account for the new member and sends an opening statement (identical to input). This first statement will serve as a receipt of payment.
5. After the deposit has been paid into the Club account, the member will be welcome to visit Wolwedans.

6. An updated statement will be sent to members after every visit
7. If the credit has been fully utilized, a member can renew membership by transferring another NAD 100.000 (or more) into the Club account (bearing in mind that a membership can only be renewed every 12 months).
