Sustainability is not a side of Wolwedans; it is our heart and soul and who we are. Recognised by The Long Run as a Global Ecosphere Retreat, Wolwedans is committed to promoting an inclusive, holistic model of conservation that enhances livelihoods and cultures.

During the Covid lockdown of 2020, Stephan Brückner used the time to establish The AridEden Project, a project that is underpinned by a philosophy of balancing people, planet and profit. It is The AridEden Project that provides the framework and identity for the Wolwedans journey.

Every stay contributes through...

- Paying the Sustainability Levy per night, above the accommodation rates. This levy includes the NamibRand Nature Reserve Park Fee, and the balance is allocated to the Wolwedans Foundation to drive its 5C's Sustainability, as outlined through The AridEden Project.
- You are supporting a lodge that not only employs an all Namibian team but one that has its own Hospitality Training School, the Desert Academy, as well as a range of other skills development projects. Find out more via the Wolwedans Foundation website.
- Contributing to the conservation of the NamibRand Nature Reserve, a private nature reserve established to help protect and conserve the unique ecology and wildlife of the south-west Namib Desert.
- At Wolwedans Desert Academy's hospitality training facility, we take pride in being the practical experience hub for the Wolwedans Desert Academy. Here, our dedicated team, including enthusiastic students learning about the guest experience, may make a mistake or two, but rest assured, every hiccup is accompanied by the warmest smiles and a genuine abundance of enthusiasm.
- Every visit by a guest contributes to the AridEden Project, a practical framework for building more sustainable, resilient, and inclusive tourism conservation economies.

AT WOLWEDANS, GUESTS GO

RECONNECT. WITH THEMSELVES,
